

BUREAU OF INDIAN
STANDARDS
SMART REGISTRATION

Bureau of Indian Standards

Bureau of Indian Standards (BIS) is the National Standards Body of India established under the BIS Act 2016 for the harmonious development of the activities under Standardization and Conformity Assessment. BIS has been providing traceable and tangible benefits to the economy through standardization, certification and testing - providing safe reliable quality goods; minimizing health hazards to consumers; promoting exports and imports; control over proliferation of varieties among others.

WHAT IS CRS?

Compulsory Registration Scheme

BIS App (CRS)

DOWNLOAD OUR APP

BIS App (CRS) can be downloaded from Google Play Store (Android) or Apple Store (coming soon)

Compulsory Registration Scheme is operated under Bureau of Indian Standard (Conformity Assessment) Regulation, 2018 (Scheme II of Schedule II), as per the BIS Act 2016. The Scheme aims to provide momentum to the rapidly expanding sectors of Electronic & IT, while simultaneously protecting Indian consumers from spurious and substandard products. It has upgraded the competitiveness of domestic manufacturers and given Indian Consumers the right to enjoy world class quality-compliant goods. This strategy adopted by the Government of India has helped in preventing the dumping of non-complaint goods and bridged the gap between People, Technology and Safety.

The Compulsory Registration Order (CRO) forte is that no entity shall manufacture or import or sell or distribute goods which do not conform to the specified Indian Standard and does not bear the Standard Mark.

The list of products notified by various government agencies under CRO is available at our **website:** <http://crsbis.in/BIS/products.do>

Who can apply for CRS?

- Manufacturer (factory owner) of any product, which comes under the ambit of the Compulsory Registration Order (CRO) notified by Ministry of Electronics and Information Technology (MeitY) or Ministry of New and Renewable Energy (MNRE).
